

2020 Midland Bull Test Leaders

With excitement, anticipation, and humility, the Williams and McDonnell families personally invite you to join us for the Midland Bull Test sales April 2-3, 2020. The Final Sort Sale has become the source for bulls that sift themselves to the top! The paper, genomics, and EPDs do not walk the walk for the bulls. The bulls must perform and be in the top end for ADG, WDA, and adjusted 365 weights. They also need to be structurally sound, pass a fertility exam, and have a manageable disposition. These days in agriculture, the margins can be thin and we take it one step further for the cattleman by measuring efficiency. One doesn't simply select on low intake, one can select for balance between DMI and gain to find the best of both worlds.....and achieve more profitability. We don't encourage selection based on low intake alone, we encourage selecting for balance between DMI and gain (Efficiency Ratio) to attain the best of both worlds.

The amount of data that one can accumulate on an individual animal can be mind boggling, however, one cannot over emphasize the need for balance. The consequences of single trait selection can quickly rear its ugly head. Midland strives to identify the bulls that have balance across the board and cover the bases as indicated in the MBT index. This Index also determines the sale order at Midland.

Measuring actual performance with measured efficiency is the indicator of progress or not. The commercial cattleman is always will be at the forefront of Midland's mindset with testing bulls. Developing them on a high roughage ration coupled with moderate gains to enable them to become skeletally sound for years of breeding service.

Each sort that leads up to the Final Sort starts with the consignor making the best mating selections for their program and their customers. This is followed by the in-herd performance and selecting the top end of those bull calves being sent to Midland to perform on a level playing field. Bulls are continually sifted for structure, feet, and disposition. All these criteria are considered along with the bull's actual performance and determine the "Final Sort" Sale. Cattlemen can be assured that these bulls are the cream of the crop out of 150 plus herds!

We extend a personal invitation to partake in the Midland Bull Test Event and enjoy the top notch entertainment by Kyle Shobe and "the Walk 'Em Boys" and great food and camaraderie with like-minded people. This portion takes place in the evenings of April 1 and 2 (see page 1 for details).

To our previous buyers and consignors, we appreciate your friendship and trust in developing and selling bulls. To new customers, we welcome you! Enjoy the Final Sort! -Steve Williams

ANGUS LEADERS

Angus Group 2 ADG Leaders

Campbell Angus of Twisp, WA. Lot 630 sired by SAV Rainfall 6846. ADG 4.20, WDA 3.40.

Sunny Okanogan of Omak, WA. Lot 492 sired by Thomas Up River 1614. ADG 4.08, WDA 3.31.

Dix Angus Ranch of Stockton, KS. Lot 606 sired by DAR Midnight 6050. ADG 4.03, WDA 3.31.

VGA Livestock of Manhattan, MT. Lot 586 sired by WMR Infinity 141. ADG 3.95, WDA 3.22.

Wheeler Cattle of Prosser, WA. Lot 598 sired by HA Cowboy Up 5405. ADG 3.95, WDA 3.15.
